PROFILE

4th-year engineering student at JUNIA–HEI, specialising in Innovative Chemistry and Ecological Transition. I am passionate about chemistry because it helps us understand the world around us and actually help others. I am particularly interested in medicinal and pharmaceutical chemistry, medical research and formulation. Motivated, curious and reliable, I enjoy getting involved and taking initiative within a team.

PROFESSIONAL EXPERIENCE

Erasmus+ BIP Programme – Polymers for Health — **Nov. 2026 · 1 week**
POLITEHNICA University of Bucharest, Romania

- Intensive programme in English: lab work on biopolymers (hydrogels, 3D printing) and scientific poster.

Chemistry research internship – Water treatment — **May – June 2026 · 2 months**
University of Genoa (UNIGE), chemistry laboratory · Italy

- Degradation of persistent pollutants in wastewater (drug residues, dyes).
- Electrochemistry experiments, including the electrosynthesis of hydrogen peroxide (H_2O_2).
- Optimisation of the treatment by varying the experimental parameters.

Babysitter · Aix-en-Provence — **Sept. 2020 – Mar. 2025**
Regular childcare and organisation of the children's daily activities

Geoscience laboratory placement · CEREGE, Aix-en-Provence — **Dec. 2021**
Data collection and analysis alongside researchers

PROJECTS

Design of a sustainable production unit for varoglutamstat · JUNIA–HEI — **2026 – 2027**

- Molecule studied in Alzheimer's disease · year-long group project (5 students).
- Literature review: mechanism of action, synthesis routes, market, safety and environmental impact.
- Goal: a 3 t/year pharmaceutical-grade plant, from choosing the process to sizing it.

How can JUNIA reduce its carbon footprint? · JUNIA–HEI — **2025 – 2026**
Group project: analysis of the school's emissions and proposed solutions

TIPE, group research project presented to a jury · Lycée Dumont d'Urville — **2023 – 2025**

EDUCATION

Engineering degree – Innovative Chemistry and Ecological Transition · JUNIA–HEI, Lille — **2025 – 2028**

Classes préparatoires PCSI – PC · Lycée Dumont d'Urville, Toulon — **2023 – 2025**
Undergraduate courses preparing for competitive entrance exams to engineering schools

French Baccalauréat in Maths and Physics-Chemistry, with distinction · Lycée Georges Duby, Aix-en-Provence — **2023**

SKILLS

Synthesis	Organic synthesis · Reflux setup · Extraction · Recrystallisation · Distillation
Analysis	TLC · NMR · IR spectroscopy (FTIR) · UV-visible spectrophotometry · Titration
Languages	French: mother tongue · English: B2 · Spanish: B1
Tools	Word · Excel · PowerPoint

INTERESTS

Artistic gymnastics (10 years) · willpower and perseverance

Piano · sensitivity and concentration

BAFA · leading and supervising groups

Athletics · motivation and pushing my limits

Travelling · discovering other cultures and adapting

PSC1 · trained in first aid
